## What They Say **ALSA LC Unsri**

I appreciate the activities held by ALSA LC Unsri, which are creative, collaborating and continue to explore knowledge, I hope that through this activity, we will continue to share and become a place to run because we are not just waiting for the ball, but we must always remember 3G (gerak cepat, gerak bersama, garap semua potensi online) Therefore, all the knowledge gained can increase the motivation and ability of legal experts towards a golden Indonesia. Always success for ALSA, especially ALSA LC Unsri.

I compliment the academic activities organized by ALSA like this, students carry out activities that can support academic activities, not just lectures in general. But here, ALSA can bring in speakers with different backgrounds and perspectives so that students can obtain various information related to understanding an issue. I appreciate ALSA

ALSA is good. ALSA has shown the ability of the younger generation to move forward. I have accompanied ALSA in a moot court, and I think that the quality of the members who have joined ALSA has shown achievement in the academic field.

I am proud that ALSA is active as to be an active organization at the dedicated public level. What is clear is that ALSA is a forum for students to understand more about law, establish close relationships among fellow law students throughout Indonesia and provide benefits to ALSA members and the community, and ALSA contributes to current issues.

ALSA was not only a student organization but a place of "growing up" to become a reliable law scholar. Through ALSA, I have developed intrapersonal and interpersonal skills that are invaluable to a professional career. More than that, I gained deep insights into law practice and a broad network of associates from Indonesia. I'm proud to be a part of ALSA. ALSA, Always be One!

**Kesan:**

DJKI warmly welcomed the arrival of friends from the Asian Law Student Association Local Chapter (ALSA) LC UNSRI yesterday. As one of the law associations in Asia, it is important to know all the deeper things about law including intellectual property. Seeing from the presentation of the KI visit material yesterday delivered by the Subcoordinator of Cooperation between Non-Governmental Organizations and Monitoring of KI Consultants Handi Nugraha, the enthusiasm of ALSA friends was very large, all actively asked questions and discussed to explore in-depth knowledge about KI.

**Pesan:**

DJKI hopes that the visit of ALSA yesterday can add insights into Intellectual Property, and the knowledge gained can be conveyed back to the surrounding environment to invite the entire community in the dissemination of KI in the future, and we also hope that ALSA is interested in digging deeper into the knowledge of intellectual property to become a generation that plays a role in improving the field of intellectual property in the future.

For me, ALSA is more than an organization, it's a school. A school where I learn to socialize, learn to be independent, and most importantly I learn the process to become a person with value. Being an ALSAians is the very first step for making the best version of me. Contributing to ALSA as much as possible is my hobby, while I am able to, I will give my best effort to ALSA. Being opposed and criticized by many people for new good things is normal, it trains you to be above them! Trust me, don't think about what ALSA can give you, but think about what you can give to ALSA, because you will be surprised when you know what ALSA can give to your life later, take my words.. because it proved to me 1000%!

ALSA always be one! ♥

ALSA got me my first job at the Embassy of the Republic of Indonesia in Singapore. It was also because of ALSA that I was selected as the only staff member at the United Nations Resident Coordinator Office Indonesia in 2016 with a non-Ivy League background. Who would have thought that CVs and cover letters from well-known universities could be eliminated because I was the only one at that time who had (fortunately) quite a lot of organizational experience in ALSA. Moreover, at that time UN Indonesia needed people with work experience in making international scale activities to help the UN Department of Political Affairs to coordinate UN Indonesia's biggest event that year together with the Ministry of Foreign Affairs, namely the ASEAN-UN Regional Dialogue III activity. This was certainly a big step in my career. Who would have thought, the first International Conference made by FH Unsri in collaboration with Universiti Kebangsaan Malaysia (UKM) in 2015 where I had the opportunity to become its Project Officer became my biggest weapon in breaking into the world of work that I crave. I can't thank you enough for everything that you've done for me, ALSA.

ALSA, Always be One !
